Message from the Guest Editor

Dear Colleagues,

In this Special Issue, we invite high-quality original contributions covering all aspects of space debris removal—the current challenges, methodologies, and opportunities. Papers dealing with new technology developments for passive/active space debris removal technologies and strategies, the associated technological readiness of solutions, analysis and/or experimental results in the context of space debris removal methodologies, business perspectives, and initiatives are welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

You are welcome to contribute a research article or a comprehensive review for consideration and publication in *Aerospace* (ISSN 2226-4310), an on-line, open access journal.

Aerospace adheres to rigorous peer-review as well as editorial processes and publishes high quality manuscripts that address both the fundamentals and applications of aeronautics and astronautics. Our goal is to enable rapid dissemination of high impact works to the scientific community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within *Scopus*, *SCIE (Web of Science)*, *Inspec*, and other databases.

Journal Rank: JCR - Q1 (*Engineering, Aerospace*) / CiteScore - Q2 (*Aerospace Engineering*)
