Deadline for manuscript
submissions:

15 October 2021

Message from the Guest Editor

The focus of this Special Issue is “Robotics Application in Aerospace Manufacture”. Papers specifically addressing the state of the art and theoretical, experimental, and practical robotic solutions to manufacturing challenges are highly suitable for this Special Issue. Potential themes include, but are not limited to, traditional manufacturing robots, cobots, artificial intelligence, machine learning technologies, control, sensing, and end effector design. The research will identify innovative automation solutions for aerospace engineers when considering new opportunities and directions in aircraft manufacturing.

Editor-in-Chief

Prof. Dr. Konstantinos Kontis

School of Engineering, University of Glasgow, James Watt Building South, University Avenue, Glasgow G12 8QQ, Scotland, UK

Message from the Editor-in-Chief

You are welcome to contribute a research article or a comprehensive review for consideration and publication in *Aerospace* (ISSN 2226-4310), an on-line, open access journal.

Aerospace adheres to rigorous peer-review as well as editorial processes and publishes high quality manuscripts that address both the fundamentals and applications of aeronautics and astronautics. Our goal is to enable rapid dissemination of high impact works to the scientific community.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), and many other [databases](#).

Journal Rank: [JCR](#) - Q2 (*Engineering, Aerospace*) / [CiteScore](#) - Q2 (*Aerospace Engineering*)
