## **Turbulence Simulation and Advanced Theoretical, Experimental, and Computational Method Development Relevant to External Aerodynamics, Separation, and Transitional Flows**

Guest Editor:

**Dr. László Könözy**

Centre for Computational Engineering Sciences, School of Aerospace, Transport and Manufacturing, Cranfield University, Cranfield, Bedfordshire, MK43 0AL, United Kingdom

laszlo.konozsy@cranfield.ac.uk

Deadline for manuscript submissions:

**30 July 2019**

### **Message from the Guest Editor**

Simulation of turbulent flows is an interdisciplinary research field that brings together development and knowledge in conjunction with mathematical and computational physics, numerical methods, computer science, computational fluid dynamics (CFD), combustion, experimental methods, engineering fluid mechanics, and engineering applications. Since there is no ultimate solution for modeling complex turbulent flow problems, therefore, the present Special Issue is interested in recent theoretical, experimental, and computational method developments relevant to external aerodynamics, separation, and transitional flows.

School of Engineering, University  
of Glasgow, James Watt Building  
South, University Avenue,  
Glasgow G12 8QQ, Scotland, UK

## Message from the Editor-in-Chief

You are welcome to contribute a research article or a comprehensive review for consideration and publication in *Aerospace* (ISSN 2226-4310), an on-line, open access journal.

*Aerospace* adheres to rigorous peer-review as well as editorial processes and publishes high quality manuscripts that address both the fundamentals and applications of aeronautics and astronautics. Our goal is to enable rapid dissemination of high impact works to the scientific community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** Covered in the Emerging Sources Citation Index (ESCI - Web of Science) from Vol. 3 (2016), in *Inspec* (IET) from Vol. 4 (2017) and in **Scopus** (from Vol. 1).

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 18 days after submission; acceptance to publication is undertaken in 6.3 days (median values for papers published in this journal in the second half of 2018).
