The 10th Anniversary of *Aerospace*: Advances in Aerospace Sciences and Technology

Message from the Guest Editors

The year 2023 marks the 10th anniversary of our journal and together, we have achieved many things. We received our 2nd impact factor in 2022 and became a Q1 journal with a monthly publication rate exceeding 100 articles, thereby increasing the significance of the journal in this field. We would like to take this opportunity to set up an anniversary collection to celebrate our success, which will feature papers (original research articles or comprehensive review papers) in aeronautics, astronautics and space, and air traffic and transportation. Highly experienced practitioners are welcome to contribute papers, highlighting the latest developments in their research area or a detailed summary of their own work. The submission deadline for this round of call for papers is 31 December 2023. Thank you for your continuous support in the future and we look forward to your contributions.

About the Journal

Message from the Editor-in-Chief

You are welcome to contribute a research article or a comprehensive review for consideration and publication in *Aerospace* (ISSN 2226-4310), an on-line, open access journal.

Aerospace adheres to rigorous peer-review as well as editorial processes and publishes high quality manuscripts that address both the fundamentals and applications of aeronautics and astronautics. Our goal is to enable rapid dissemination of high impact works to the scientific community.

Editor-in-Chief
