

# Special Issue

## Flight Guidance and Control

### Message from the Guest Editors

The field of flight guidance and control is integral to the continued advancement and safety of modern aerospace vehicles, including manned aircraft and UAVs. As the complexity of these systems increases, so does the need for sophisticated guidance and control strategies that ensure optimal performance and compliance with stringent safety standards. This Special Issue seeks to highlight pioneering research and innovative solutions in flight guidance and control. We invite contributions on topics including, but not limited to:

---

### Guest Editors

Dr. Seokwon Lee

Department of Mechanical Engineering, Chung-Ang University, Seoul 06974, Republic of Korea

Dr. Mingu Kim

Division of Mechanical and Electronics Engineering, Hansung University, Seoul 02876, Republic of Korea

## About the Journal

### Message from the Editor-in-Chief

You are welcome to contribute a research article or a comprehensive review for consideration and publication in *Aerospace* (ISSN 2226-4310), an on-line, open access journal.

*Aerospace* adheres to rigorous peer-review as well as editorial processes and publishes high quality manuscripts that address both the fundamentals and applications of aeronautics and astronautics. Our goal is to enable rapid dissemination of high impact works to the scientific community.

---

### Editor-in-Chief

Prof. Dr. Konstantinos Kontis

School of Engineering, University of Glasgow, James Watt Building  
South, University Avenue, Glasgow G12 8QQ, UK

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Aerospace) / CiteScore - Q2  
(Aerospace Engineering)
