Special Issue

Small Satellite Missions

Message from the Guest Editors

The miniaturization of spacecraft and in-orbit technologies is leading to a broader usage of small satellite platforms for technology demonstration, scientific experiments, and New Space businesses in the Earth's orbit. Given the number and the significance of the small satellite market and the exploitation of such platforms for scientific purposes, we propose the *Aerospace* Special Issue on "Small Satellite Missions". This aims to bring together cutting-edge research on the development of novel technologies, experiments, and methodologies for the development, assurance, and operations of small satellites. We encourage submissions that explore a wide range of innovative techniques and technologies, including but not limited to:

Guest Editors

Dr. Paolo Marzioli

Department of Mechanical and Aerospace Engineering, Sapienza University of Rome, Via Eudossiana 18, 00184 Rome, Italy

Dr. Necmi Cihan Örger

Laboratory of Small Satellite Enterprises and In-Orbit Experiments (LaSeine), Kyushu Institute of Technology, Kitakyushu 804-8550, Japan

About the Journal

Message from the Editor-in-Chief

You are welcome to contribute a research article or a comprehensive review for consideration and publication in *Aerospace* (ISSN 2226-4310), an on-line, open access journal.

Aerospace adheres to rigorous peer-review as well as editorial processes and publishes high quality manuscripts that address both the fundamentals and applications of aeronautics and astronautics. Our goal is to enable rapid dissemination of high impact works to the scientific community.

Editor-in-Chief

Prof. Dr. Konstantinos Kontis

School of Engineering, University of Glasgow, James Watt Building South, University Avenue, Glasgow G12 8QQ, Scotland, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Aerospace) / CiteScore - Q2 (Aerospace Engineering)
