

## Special Issue

# Aircraft Structural Health Monitoring and Digital Twin

### Message from the Guest Editors

The continuous advancement of aircraft technology has brought significant benefits to both production and daily life. However, complex operational conditions such as high speed, high altitude, and strong interference have imposed more demanding requirements on the utilization and maintenance of aircraft structures. This has led to greater safety-related and economic challenges.

## About the Journal

### Message from the Editor-in-Chief

You are welcome to contribute a research article or a comprehensive review for consideration and publication in *Aerospace* (ISSN 2226-4310), an on-line, open access journal.

*Aerospace* adheres to rigorous peer-review as well as editorial processes and publishes high quality manuscripts that address both the fundamentals and applications of aeronautics and astronautics. Our goal is to enable rapid dissemination of high impact works to the scientific community.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Aerospace) / CiteScore - Q2  
(Aerospace Engineering)
