

# Special Issue

## New Trends in Aviation Development 2021-2022

### Message from the Guest Editors

This Special Edition aims to present recent advances in aeronautics and aerospace technology, or an interdisciplinary agenda including a selected contribution from the New Trends in Aviation Development International Scientific Conference “NTinAD 2021” <https://ntad.lf.tuke.sk/#about>, but also papers from other researchers that fit into the topics of this Special Issue. A goal is to provide an international forum for presentation of recent progress in air traffic management and operations, aircraft design, and aviation technologies, as well as issues of education, management, policy, planning, and the aviation market affecting the future direction of the aviation industry, challenges for the renewal of air transport, the development of tourism, and international cooperation in the post-COVID-19 period, within the framework of eco-innovative technologies for the protection of the environment and public health, with the support of IT technologies for decision-making processes.

## About the Journal

### Message from the Editor-in-Chief

You are welcome to contribute a research article or a comprehensive review for consideration and publication in *Aerospace* (ISSN 2226-4310), an on-line, open access journal.

*Aerospace* adheres to rigorous peer-review as well as editorial processes and publishes high quality manuscripts that address both the fundamentals and applications of aeronautics and astronautics. Our goal is to enable rapid dissemination of high impact works to the scientific community.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Aerospace) / CiteScore - Q2  
(Aerospace Engineering)
