

## Special Issue

# Aircraft Design and System Optimization

### Message from the Guest Editors

In the dynamic field of aerospace engineering, the quest for optimal aircraft design is a cornerstone of innovation and progress. Pursuing efficiency, performance, and sustainability necessitates continuous exploration and advancement in aircraft design optimization methodologies. In addition, including subsystem analysis is crucial for developing novel aircraft concepts, as it offers invaluable insights into the intricate relationship between various components and their impact on overall aircraft performance and efficiency. This Special Issue seeks to spotlight the latest developments in aircraft design and subsystem optimization, aiming to bridge theoretical insights with practical applications to propel the aerospace industry forward.

### Guest Editors

Dr. Musavir Bashir

Prof. Dr. Ruxandra Botez

Dr. Susan Liscouët-Hanke

### Deadline for manuscript submissions

closed (30 June 2025)

## About the Journal

### Message from the Editor-in-Chief

You are welcome to contribute a research article or a comprehensive review for consideration and publication in *Aerospace* (ISSN 2226-4310), an on-line, open access journal.

*Aerospace* adheres to rigorous peer-review as well as editorial processes and publishes high quality manuscripts that address both the fundamentals and applications of aeronautics and astronautics. Our goal is to enable rapid dissemination of high impact works to the scientific community.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Aerospace) / CiteScore - Q2  
(Aerospace Engineering)
