

Special Issue

Aero-Engine Design

Message from the Guest Editor

This Special Issue on “Aero-Engine Design” will cover a broad range of contemporary issues and research conducted in the field of aero-engine design, both in civil and military aviation. This Special Issue offers an opportunity for academics, researchers, and industry practitioners working in the broader aero-engine field to publish their original research and review articles. Particular emphasis will be placed on state-of-the-art review works and theoretical, experimental, computational research, as well as applied engineering work conducted on aero-piston engines, aero-turbine engines, and new technology engines in relation to the following topics:

About the Journal

Message from the Editor-in-Chief

You are welcome to contribute a research article or a comprehensive review for consideration and publication in *Aerospace* (ISSN 2226-4310), an on-line, open access journal.

Aerospace adheres to rigorous peer-review as well as editorial processes and publishes high quality manuscripts that address both the fundamentals and applications of aeronautics and astronautics. Our goal is to enable rapid dissemination of high impact works to the scientific community.

Editor-in-Chief

Prof. Dr. Konstantinos Kontis
School of Engineering, University of Glasgow, James Watt Building
South, University Avenue, Glasgow G12 8QQ, Scotland, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Aerospace) / CiteScore - Q2
(Aerospace Engineering)
