

Special Issue

Space–Air–Ground–Integrated Communications in the New Era: Applications, Challenges, and Countermeasures

Message from the Guest Editor

We are launching Special Issue entitled "Space–Air–Ground–Integrated Communications in the New Era: Applications, Challenges, and Countermeasures". Scholars working in relevant areas of research are invited to make submissions on a variety of topics, including: The basic theory of space–air–ground communication network, Relay-assisted dense heterogeneous network, Space–air–ground channel modeling, Satellite, HAPs, UAV trajectory optimization, and resource allocation, Space–air–ground Internet of Things, Space–air–ground emergency communication network, Space–air–ground secure transmission method, Space–air–ground green communication technology, Space–air–ground millimeter wave communication technology, Space–air–ground communication architecture and verification platform.

Guest Editor

Prof. Dr. Guanjun Xu

About the Journal

Message from the Editor-in-Chief

You are welcome to contribute a research article or a comprehensive review for consideration and publication in *Aerospace* (ISSN 2226-4310), an on-line, open access journal.

Aerospace adheres to rigorous peer-review as well as editorial processes and publishes high quality manuscripts that address both the fundamentals and applications of aeronautics and astronautics. Our goal is to enable rapid dissemination of high impact works to the scientific community.

Editor-in-Chief

Prof. Dr. Konstantinos Kontis
School of Engineering, University of Glasgow, James Watt Building
South, University Avenue, Glasgow G12 8QQ, Scotland, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Aerospace) / CiteScore - Q2
(Aerospace Engineering)
