

## Special Issue

# Closing the Gap in Aircraft Trajectories: Enhancing Optimization and Prediction Approaches

### Message from the Guest Editors

This special issue intends to bring recognition to the contribution of aircraft trajectory optimization and aircraft trajectory prediction techniques and will provide a forum to disseminate the latest research work with the aim of further stimulating interest in this area of great potential. Potential topics include but are not limited to the following:

- Robust aircraft trajectory optimization.
- Aircraft trajectory optimization and climate change.
- Uncertainty propagation in trajectory prediction.
- Artificial Intelligence techniques applied to aircraft trajectory optimization
- Artificial Intelligence techniques applied to trajectory prediction
- Stable and resilient solutions to the ATM-System

---

### Guest Editors

Dr. Manuel Soler

Aerospace Engineering Research Group, Universidad Carlos III de Madrid, 28005 Madrid, Spain

Prof. Dr. Jacco M. Hoekstra

Control and Simulation Research Group, Delft University of Technology, 2628 CD Delft, The Netherlands

---

### Deadline for manuscript submissions

## About the Journal

### Message from the Editor-in-Chief

You are welcome to contribute a research article or a comprehensive review for consideration and publication in *Aerospace* (ISSN 2226-4310), an on-line, open access journal.

*Aerospace* adheres to rigorous peer-review as well as editorial processes and publishes high quality manuscripts that address both the fundamentals and applications of aeronautics and astronautics. Our goal is to enable rapid dissemination of high impact works to the scientific community.

---

### Editor-in-Chief

Prof. Dr. Konstantinos Kontis  
School of Engineering, University of Glasgow, James Watt Building  
South, University Avenue, Glasgow G12 8QQ, Scotland, UK

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Aerospace) / CiteScore - Q2  
(Aerospace Engineering)
