Message from the Guest Editors

Dear Colleagues,

A Special Issue of *Agriculture* is going to be released in the second half of 2023, devoted to seed storage and longevity. The subject is extremely pertinent these days, in the times of accelerating climate change, declining biodiversity, political and economic conflicts, and the rapidly expanding range of available research methods. We are pleased to invite you to submit the results of your discoveries to share them with the readers of our journal. *Agriculture* is an international, scientific peer-reviewed open access journal published monthly online by MDPI.

The Special Issue announced here will provide a platform for presenting recent developments in areas spanning the following subjects: the effects of biotic and abiotic factors on seed storage, vigor, and viability assessments, seed biochemical composition and its changes during storage, genetic determinants of seed storability, seed aging manifestations in various cell compartments, and seed banks. Original research articles and reviews are welcome. We look forward to receiving your contributions.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, scholarly and scientific open access journal publishing peer-reviewed research papers, review articles, communications and short notes that reflect the breadth and interdisciplinarity of agriculture.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), GEOBASE, PubAg, AGRIS, RePEc, and other databases.

Journal Rank: JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
