Technology, Mianyang 621010,
China

Message from the Guest Editors

Rice is a staple food for more than half of the world's population. Recent advances in genomics, genetics and breeding have highlighted the increase in nutrition use efficiency, abiotic stress resistance, grain production and quality in rice. It is necessary to promote research and the dissemination of results in this field. We are pleased to invite you to submit your research progress to *Agriculture*, a professional Q1 periodical in the "Agronomy" category, to be presented in this Special Issue on rice genomics, genetics and breeding.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: rice genetics, rice genome analysis and applications in rice breeding. We look forward to receiving your contributions.

Deadline for manuscript
submissions:

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

Journal Rank: JCR - Q1 (*Agronomy*) / CiteScore - Q2 (*Plant Science*)
