Message from the Guest Editors

Rice is a staple food for more than half of the world's population. Recent advances in genomics, genetics and breeding have highlighted the increase in nutrition use efficiency, abiotic stress resistance, grain production and quality in rice. It is necessary to promote research and the dissemination of results in this field. We are pleased to invite you to submit your research progress to *Agriculture*, a professional Q1 periodical in the "Agronomy" category, to be presented in this Special Issue on rice genomics, genetics and breeding.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: rice genetics, rice genome analysis and applications in rice breeding. We look forward to receiving your contributions.

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, scholarly and scientific open access journal publishing peer-reviewed research papers, review articles, communications and short notes that reflect the breadth and interdisciplinarity of agriculture.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), GEOBASE, PubAg, AGRIS, RePEc, and other databases.

Journal Rank: JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
