Developing the Evidence Base for Rural Development Policies and Interventions to Address Novel and Emerging Societal Problems

Guest Editors:

Prof. Dr. Francesco Caracciolo

Department of Agricultural Sciences, University of Naples Federico II, 80055 Naples, Italy

Prof. Dr. Danilo Bertoni

Department of Environmental Science and Policy, University of Milan, Milano, Italy

Dr. Raffaele Cortignani

Department of Agriculture and Forest Sciences (DAFNE), Tuscia University, Via San Camillo de Lellis, 01100 Viterbo, Italy

Deadline for manuscript submissions:

closed (15 February 2023)

Message from the Guest Editors

The COVID-19 pandemic is emphasizing the importance of a resilient food system that ensures affordable food for consumers and helps to uncover the existing critical interrelations between ecosystem preservation, food system characteristics, and health. The need for a transition toward a more sustainable food system maximizing environmental, health, and social benefits while supporting economic growth is therefore particularly needed.

To foster this transition, countries are asked to orient their policy interventions in agriculture to improve their response to societal demands on food and health, including safe, nutritious, and sustainable food. Agricultural policies need to adapt to the current challenges, which leads to two relevant and related research gaps. Empirical evidence on the fitness and suitability of traditional measures and interventions in agriculture in achieving the expected outcomes and impact is particularly limited with regard to novel expectations and requests.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Les Copeland

Sydney Institute of Agriculture,
School of Life and Environmental
Sciences, The University of
Sydney, Sydney, NSW 2006,
Australia

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, scholarly and scientific open access journal publishing peer-reviewed research papers, review articles, communications and short notes that reflect the breadth and interdisciplinarity of agriculture.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), GEOBASE, PubAg, AGRIS, RePEc, and other databases.

Journal Rank: JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
