

Special Issue

Innovative Design and Application of Modern Agricultural Machinery Systems in Cropping Systems

Message from the Guest Editors

Different mechanical systems are used in various types of cropping systems. There is an urgent need for innovative and common mechanical systems to meet the growing global demands. With these challenges and opportunities in mind, we are excited to announce this Special Issue, aimed at showcasing the groundbreaking research in the designs and applications of modern agricultural machinery systems. We welcome original contributions and comprehensive reviews from various research fields. These themes encompass a range of topics which are crucial for advancing agricultural production, including tillage, seeding, fertilization, harvesting, tractor technology, and control and automation systems. Themes and Topics: Innovative tillage and seeding technologies
Advances in fertilization methods and equipment
Cutting-edge harvesting technologies
Modern tractor technologies and their applications
Control and automation systems in agriculture
Sustainable agricultural machinery solutions
Precision agriculture and smart farming technologies
We look forward to your insightful contributions.

Guest Editors

Dr. Mustafa Ucgul

Faculty of Science and Engineering, Southern Cross University,
Lismore, NSW 2480, Australia

Prof. Dr. Chung-Liang Chang

Department of Biomechatronics Engineering, National Pingtung
University of Science and Technology, Pingtung County 91201, Taiwan

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, scholarly and scientific open access journal publishing peer-reviewed research papers, review articles, communications and short notes that reflect the breadth and interdisciplinarity of agriculture.

Editor-in-Chief

Prof. Dr. Les Copeland
Sydney Institute of Agriculture, School of Life and Environmental
Sciences, The University of Sydney, Sydney, NSW 2006, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
