

## Special Issue

# Trade Development and Value Chains in Agriculture

### Message from the Guest Editors

This Special Issue, Trade Development and Value Chains in Agriculture, will focus on the various parts of the value chain: the primary production, industry, trade and consumers. It will include inter-disciplinary studies on all the agrifood sectors, supplies, raw materials, foods and beverages. The research articles will cover a broad range of topics, such as the most vulnerable sectors, the solutions, and measures adopted, a cost analysis, the interest of agricultural policies, the environmental effects on the agrifood chain, the cost and benefit of each link in the chain, consumer perception of the value chain, the final prices in an inflationary context, the consequences for the international market, the effect of decreasing agricultural production on the development of rural areas and social cohesion. Any type of article, including original research, opinions, and reviews are greatly appreciated.

## About the Journal

### Message from the Editor-in-Chief

*Agriculture* (ISSN 2077-0472) is an international, cross-disciplinary and scholarly journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. We invite submissions from authors according to the aims and scope of the journal described in more detail on this page. *Agriculture* is published in an open access format – articles are published on the journal's website immediately after acceptance, giving the scientific community and the public unlimited and free access to the content.
