

Special Issue

Organic and Inorganic Contamination in Food: From Farm to Fork

Message from the Guest Editors

We are pleased to invite you to submit a contribution to this Special Issue of *Agriculture*, entitled “Organic and Inorganic Contamination in Food: From Farm to Fork”. The industrialization and urbanization, the use of chemicals in agriculture, and contaminant leaching during food processing contribute to the accumulation/transport of pollutants in the ecosystem (air, water, and soil) and, consequently, in the food chain. In this context, the Farm to Fork (F2F) Strategy, which is the 10-year plan developed by the European Commission as part of the European Green Deal, promotes several efforts to guide the transition to a fair, healthy and environmentally friendly food system. The aim of this Special Issue is to collect high-quality/innovative papers on the quality and safety of agricultural products. All studies related to the identification/quantification of organic (i.e., pesticides, PAHs, PCBs, plasticizers, bisphenols, etc.) and inorganic (e.g., potentially toxic elements) contaminants will be considered. In addition, review articles and original research on innovative and green approaches/solutions to reduce food contamination are welcome.

About the Journal

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, scholarly and scientific open access journal publishing peer-reviewed research papers, review articles, communications and short notes that reflect the breadth and interdisciplinarity of agriculture.

Editor-in-Chief

Prof. Dr. Les Copeland
Sydney Institute of Agriculture, School of Life and Environmental
Sciences, The University of Sydney, Sydney, NSW 2006, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), GEOBASE, PubAg, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
