# Special Issue

# Agri-Food Processing, Production and Quality Analysis

## Message from the Guest Editor

The agri-food industry is one of the most important and fastest-growing areas in the global economy. The development of production, integration, and progressively expanding globalization represent new opportunities, but also threats that may both help the industry to grow and affect it negatively. We invite scientific papers from around the world that investigate the processing, production, and quality analysis of major and new crop products, as well as their agricultural technology and quality analysis. This Special Issue concentrates on the importance of the factors influencing the processing and production of agri-foods in determining their quality, which has become a distinctive and vital aspect for all types of such products. Today, for agri-food producers, quality assurance is an essential process throughout the entire food chain, from the supplier of raw materials to the consumer. This issue will include interdisciplinary studies related to agricultural products that may involve their technology, processing, and analysis determining their quality. All types of articles, such as original research articles and reviews, are welcome.

# **About the Journal**

## Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, scholarly and scientific open access journal publishing peer-reviewed research papers, review articles, communications and short notes that reflect the breadth and interdisciplinarity of agriculture.

#### Editor-in-Chief

#### Prof. Dr. Les Copeland

Sydney Institute of Agriculture, School of Life and Environmental Sciences, The University of Sydney, Sydney, NSW 2006, Australia

#### **Author Benefits**

### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

#### **Journal Rank:**

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
