Advanced Research of Secondary Metabolites in Medicinal and Industrial Plants

Message from the Guest Editors

We are delighted to announce a Special Issue entitled "Advanced Research of Secondary Metabolites in Medicinal and Industrial Plants". In recent years, there has been a growing interest in exploring the potential of secondary metabolites derived from plants for medicinal and industrial applications. This Special Issue aims to compile cutting-edge research in this field and provide a platform for sharing insights and discoveries. The scope of this Special Issue encompasses a wide range of topics related to the advanced research of secondary metabolites in medicinal and industrial plants.

- Isolation and characterization
- Biological activities
- Mechanistic insights
- Biotechnological approaches
- Applications in medicine and industry

We encourage researchers from academia, research institutes, and industry to contribute their original research articles, reviews, and perspectives to this Special Issue. By sharing your findings and insights, you will contribute to advancing our understanding of secondary metabolites in medicinal and industrial plants and pave the way for the development of innovative solutions with real-world applications.

About the Journal

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, scholarly and scientific open access journal publishing peer-reviewed research papers, review articles, communications and short notes that reflect the breadth and interdisciplinarity of agriculture.

Editor-in-Chief

Prof. Dr. Les Copeland
Sydney Institute of Agriculture, School of Life and Environmental
Sciences, The University of Sydney, Sydney, NSW 2006, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
