

Special Issue

Agricultural Insurance, Risk Management and Sustainable Development

Message from the Guest Editors

This thematic issue of Agriculture is published with the aim of summarizing international experiences in the field of agricultural insurance, risk management in agriculture, and rural sustainable development. Within the framework of the Special Issue, scientific research aimed at solving a set of problems and ensuring the development of agriculture will be presented, covering the following topics:

Conducting agricultural production in risky conditions, the use of risk reduction tools, and the development of agricultural insurance;

Development of scientific and practical potential in order to formulate proposals for the introduction of science-intensive technologies in agriculture;

Popularization of fundamental and applied research in the field of agriculture, animal science, zoology, agronomy, plant growing, and soil science;

Formation of recommendations aimed at improving computer models, information technology, engineering, innovation, and digital technologies in agriculture.

About the Journal

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, cross-disciplinary and scholarly journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. We invite submissions from authors according to the aims and scope of the journal described in more detail on this page. *Agriculture* is published in an open access format – articles are published on the journal's website immediately after acceptance, giving the scientific community and the public unlimited and free access to the content.

Editor-in-Chief

Prof. Dr. Les Copeland

Sydney Institute of Agriculture, School of Life and Environmental Sciences, The University of Sydney, Sydney, NSW 2006, Australia
