Special Issue

Agricultural Insurance, Risk Management and Sustainable Development

Message from the Guest Editors

This thematic issue of Agriculture is published with the aim of summarizing international experiences in the field of agricultural insurance, risk management in agriculture, and rural sustainable development. Within the framework of the Special Issue, scientific research aimed at solving a set of problems and ensuring the development of agriculture will be presented, covering the following topics:

Conducting agricultural production in risky conditions, the use of risk reduction tools, and the development of agricultural insurance:

Development of scientific and practical potential in order to formulate proposals for the introduction of science-intensive technologies in agriculture; Popularization of fundamental and applied research in the field of agriculture, animal science, zoology, agronomy, plant growing, and soil science; Formation of recommendations aimed at improving computer models, information technology, engineering, innovation, and digital technologies in agriculture.
