

## Special Issue

# Feature Papers in Crop Protection, Diseases, Pests and Weeds

### Message from the Guest Editors

The section of the Agriculture journal “Crop Protection, Diseases, Pests, and Weeds” has strived toward high-quality published papers. I thank all who have contributed to results thus far. The constant challenges of climate change, pesticide resistance evolution, and the need to reduce pesticide use, encourage us to continue this path. As part of integrated pest management, particular attention has been paid to studies of innovative control strategies in sustainable agriculture. This Special Issue collects advanced studies in crop protection, pest management, pathogen identification, biological control, safe pesticide development, plant–microbe interactions, and more. In this Special Issue, multi-, inter- and transdisciplinary original papers and reviews will be collected. Contributions to this Special Issue are only accepted from the editorial board and scientists invited by the editorial board.

### Guest Editors

Dr. Anna Andolfi

Department of Chemical Sciences, University of Naples Federico II, Complesso Universitario Monte S. Angelo Via Cintia 4, I-80126 Naples, Italy

Dr. Francesco Vinale

Department of Veterinary Medicine and Animal Production, University of Naples Federico II, Via Federico Delpino 1, I-80137 Naples, Italy

### Deadline for manuscript submissions

closed (30 April 2024)

## About the Journal

### Message from the Editor-in-Chief

*Agriculture* (ISSN 2077-0472) is an international, cross-disciplinary and scholarly journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. We invite submissions from authors according to the aims and scope of the journal described in more detail on this page. *Agriculture* is published in an open access format – articles are published on the journal's website immediately after acceptance, giving the scientific community and the public unlimited and free access to the content.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

#### Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
