## **Special Issue**

# System Efficiency and Resource Recovery in Circular Horticulture

#### Message from the Guest Editors

This Special Issue welcomes original research and review articles that provide insights into all topics related to sustainable and circular horticulture. The scope of submission includes all aspects of sustainability (economic, environmental, and social) in horticulture, as well as the efficiency of resources, input and outputs, in different climatic conditions and agrosystems. Work related to reducing, reusing, recycling and recovering materials in the horticultural sector is welcome.
