

Special Issue

Sustainable Farming Intensification: Balancing Productivity and Resilience

Message from the Guest Editors

The aim of this Special Issue is to bring together contributions from a wide range of disciplines relating to the agricultural and livestock production economics, performance analysis, crop production and animal husbandry, management sciences, operations research and environmental analysis to highlight transdisciplinary advancements and to contribute to the ongoing debate regarding the solutions that will help meet the expected productivity in the agricultural and livestock sector and overcome recurring sustainability and resilience challenges. Research areas may include (but not limited to) the following: Performance and productivity analysis of crop and livestock systems; Innovations and best practices for sustainable crop and livestock systems; Precision and smart farming technologies; Decision support systems to enhance efficiency; Optimization of agricultural activities; Systems integration and impact assessment; Agricultural policies, economics transitions and productivity; Efficient management of natural resources/Ecosystem services; Agroecological principles for designing productive and resilient farms; Novel Agri-food Systems/Sustainable food value chains.

Guest Editors

Prof. Dr. Katerina Melfou

Department of Agriculture, Faculty of Agricultural Sciences, University of Western Macedonia, 53100 Florina, Greece

Dr. Alexandros Theodoridis

Laboratory of Animal Production Economics, Faculty of Veterinary Medicine, Aristotle University of Thessaloniki, 54124 Thessaloniki, Greece

Deadline for manuscript submissions

10 April 2026

About the Journal

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, scholarly and scientific open access journal publishing peer-reviewed research papers, review articles, communications and short notes that reflect the breadth and interdisciplinarity of agriculture.

Editor-in-Chief

Prof. Dr. Les Copeland
Sydney Institute of Agriculture, School of Life and Environmental
Sciences, The University of Sydney, Sydney, NSW 2006, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
