

Special Issue

Medicinal and Aromatic Plants in Agricultural Research When Considering Criteria of Multifunctionality and Sustainability

Message from the Guest Editors

This Special Issue of *Agriculture* on “Medicinal and Aromatic Plants in Agricultural Research when Considering Multifunctionality and Sustainability Criteria” aims to illustrate the role of MAPs in agriculture under low-impact farming practices and the benefits they can generate in terms of functional products. This Special Issue accepts contributions that cover all research aspects related to MAPs, and a number of scientific macro-areas can also be included, such as agronomy, chemistry and pharmacy, ethnobotany and ethnopharmacology, food and nutrition, and ecology. Key topics in this Special Issue include but are not limited to the following:

- Sustainable agricultural practices of MAPs;
- Breeding and germplasm preservation of MAPs;
- Biodiversity of MAPs;
- Conservation of cultivated and wild MAPs;
- Ethnobotany and ethnopharmacology;
- Phytotherapy, phytochemistry, and phytopharmacology;
- Essential oils and secondary metabolites;
- Functional foods and MAPs;
- MAPs and degraded and marginal land recovery;
- Global marketing of MAPs;
- Legislation of MAPs.

About the Journal

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, cross-disciplinary and scholarly journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. We invite submissions from authors according to the aims and scope of the journal described in more detail on this page. *Agriculture* is published in an open access format – articles are published on the journal's website immediately after acceptance, giving the scientific community and the public unlimited and free access to the content.

Editor-in-Chief

Prof. Dr. Les Copeland

Sydney Institute of Agriculture, School of Life and Environmental Sciences, The University of Sydney, Sydney, NSW 2006, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
