

## Special Issue

# Agricultural Policies toward Sustainable Farm Development

### Message from the Guest Editors

Sustainable farm development is a pivotal force to address the pressing challenges of food security, environmental pollution, climate change, and biodiversity loss. Promoting sustainable farm development is the main content of Sustainable Development Goals and is imperative to ensuring the harmonious coexistence of agricultural growth and environmental preservation. Agricultural policy plays a vital role in driving sustainable farm development. Well-designed policies can provide incentives for farmers to adopt sustainable practices, such as offering subsidies for organic certification or promoting the use of renewable energy sources in agriculture. Moreover, agricultural policies can facilitate the dissemination of knowledge and best practices through training programs and extension services, empowering farmers to make informed decisions and implement sustainable farming methods. Policy interventions can also address market failures and ensure fair pricing mechanisms, which can incentivize farmers to invest in sustainable practices without compromising their economic viability.

## About the Journal

### Message from the Editor-in-Chief

*Agriculture* (ISSN 2077-0472) is an international, cross-disciplinary and scholarly journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. We invite submissions from authors according to the aims and scope of the journal described in more detail on this page. *Agriculture* is published in an open access format – articles are published on the journal's website immediately after acceptance, giving the scientific community and the public unlimited and free access to the content.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

#### Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
