## Special Issue

# **Emerging Technologies in Crop Protection: Advanced Methods and Machinery**

#### Message from the Guest Editors

This Special Issue focuses on building a community of authors and readers to discuss the latest research experiences, the emerging technologies of advanced methods (agricultural, physical, biological, chemical, plant guarantine, and integrated pest management), and environment-friendly machinery in crop protection. Intelligent crop protection technology is of crucial importance. The emerging technologies for crop protection methods and machinery include but are not limited to intelligent integrated pest management, crop protection UAVs and robots. Al-based crop pest identification, variable-rate technology, smart targeting spraying, and matching technology between crop phenotype customization and crop protection machinery operation, as well as other innovative ideas for strategies and solutions in crop protection. We would like to invite scholars and researchers from around the world to contribute all types of articles, such as original research, reviews, and cutting-edge opinions to create a collection of papers on insightful strategies and innovative technologies for advanced methods and machinery in crop protection.

### **About the Journal**

#### Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, scholarly and scientific open access journal publishing peer-reviewed research papers, review articles, communications and short notes that reflect the breadth and interdisciplinarity of agriculture.

#### Editor-in-Chief

#### Prof. Dr. Les Copeland

Sydney Institute of Agriculture, School of Life and Environmental Sciences, The University of Sydney, Sydney, NSW 2006, Australia

#### **Author Benefits**

#### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

#### **Journal Rank:**

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
