### Special Issue

## Grain Harvesting, Processing Technology, and Storage Management

#### Message from the Guest Editors

We are delighted to invite scholarly contributions that investigate the interlinkages between food security, food quality, and food security management information systems. Additionally, we encourage the submission of research on advancements in food production and processing technology, as well as on grain storage and management. Furthermore, we are particularly interested in exploring multi-field interactions and multifactor coupling within the context of grain harvesting. postharvest control, and the eco-concept of stored grain. We highly encourage contributions that delve into smart grain systems, artificial intelligence techniques, and information technology. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: grain harvesting; processing technology; grain storage; smart grain and smart grain systems; artificial intelligence; and information technology.

### **About the Journal**

#### Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, cross-disciplinary and scholarly journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. We invite submissions from authors according to the aims and scope of the journal described in more detail on this page. Agriculture is published in an open access format – articles are published on the journal's website immediately after acceptance, giving the scientific community and the public unlimited and free access to the content.

#### Editor-in-Chief

#### Prof. Dr. Les Copeland

Sydney Institute of Agriculture, School of Life and Environmental Sciences, The University of Sydney, Sydney, NSW 2006, Australia

#### **Author Benefits**

#### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

#### **Journal Rank:**

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
