Special Issue

Sustainability and Energy Economics in Agriculture—2nd Edition

Message from the Guest Editor

Sustainable rural development requires balance between sustainable agriculture and sustainable energy sector in rural areas. Food security and energy security with a transition towards clean energy are objectives that cannot be achieved without investments and efficiency in the use of limited agricultural, forestry, and other rural area resources. With increasing demand for food and energy, there is greater pressure on natural resources and a greater demand for clean energy. To resolve complex questions, interdisciplinary technological, regulatory, policy, landscape, environmental, societal, economic, cultural, and other challenges regarding the effects of the energy sector on agriculture, forestry, rural areas, and their bioresources must be resolved. Authors are invited to submit empirical, methodological, and theoretical research on links between agriculture, forestry, rural areas, energy, and other socioeconomic activities. Perspectives from multiple disciplines are welcome, including science and technology; economics, management, and social sciences; and public and scientific studies on democratic societies in relation to sustainability and energy economics in agriculture.

About the Journal

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, scholarly and scientific open access journal publishing peer-reviewed research papers, review articles, communications and short notes that reflect the breadth and interdisciplinarity of agriculture.

Editor-in-Chief

Prof. Dr. Les Copeland

Sydney Institute of Agriculture, School of Life and Environmental Sciences, The University of Sydney, Sydney, NSW 2006, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
