# Special Issue

# Ecological Management of Insect Pests

# Message from the Guest Editor

Integrated pest management (IPM) is pest control actions that ensure favorable economic, ecological, and social consequences and are applicable to most agricultural pest management situations. Ecological pest management (EPM) shares many fundamentals of IPM considering the stability of natural ecosystems as the most important goal along with good yield of crop cultivation. This Special Issue on "Ecological Management of Insect Pests" has been set up to showcase such tactics and advances. Based on your expertise, we invite you to consider submitting a contribution to this Special Issue. Original research articles and reviews are accepted. Submitted papers should not be under consideration for publication elsewhere.

# **About the Journal**

## Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, scholarly and scientific open access journal publishing peer-reviewed research papers, review articles, communications and short notes that reflect the breadth and interdisciplinarity of agriculture.

#### Editor-in-Chief

## Prof. Dr. Les Copeland

Sydney Institute of Agriculture, School of Life and Environmental Sciences, The University of Sydney, Sydney, NSW 2006, Australia

### **Author Benefits**

## **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

### **Journal Rank:**

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
