

## Special Issue

# Energy Efficiency in Agriculture

### Message from the Guest Editors

This Special Issue examines recent advances in the analysis of energy efficiency in agriculture. The call for papers includes analyses in all research areas of agriculture, including animal husbandry and crop production in arable and permanent cropping systems (e.g., grassland, orchards, and vineyards) with respect to energy use in agriculture and energy efficiency. The submitted papers should follow a systems approach and analyze the energy efficiency for the whole production system. Partial analyses are also welcome. We welcome contributions of both reviews and original research.

## About the Journal

### Message from the Editor-in-Chief

*Agriculture* (ISSN 2077-0472) is an international, cross-disciplinary and scholarly journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. We invite submissions from authors according to the aims and scope of the journal described in more detail on this page. *Agriculture* is published in an open access format – articles are published on the journal's website immediately after acceptance, giving the scientific community and the public unlimited and free access to the content.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

#### Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
