Special Issue

Oil Production

Message from the Guest Editor

The increasing food/feed demand, together with the persistent dependence on oils for energetic purposes, makes oil production an issue that deserves continuous attention. Additionally, the concerns on oil production environmental impacts, as well as the climate change effects on oil crops needs to be discussed and probably reshaped to grant the future oil supply that our society will need. This Special Issue aims to look into the production, processing and quality of oils for food/feed, cosmetic, biodiesel and other purposes, without forgetting waste management. Articles focusing on new or renewed oil sources production are welcomed, from vegetable, microalgae, insect or other sources.

About the Journal

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, scholarly and scientific open access journal publishing peer-reviewed research papers, review articles, communications and short notes that reflect the breadth and interdisciplinarity of agriculture.

Editor-in-Chief

Prof. Dr. Les Copeland

Sydney Institute of Agriculture, School of Life and Environmental Sciences, The University of Sydney, Sydney, NSW 2006, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
