

Special Issue

Parasitic Plants and Weeds Control in Cropping Systems

Message from the Guest Editor

This Special Issue welcomes research articles and reviews on studies embracing the disciplines of parasitic plant biology and physiology, population diversity and dynamics, advanced diagnosis and forecasting, cultivation techniques leading to reduction of parasitic weed infection, biocontrol, traditional chemistries, the discovery of natural products with novel mode of herbicidal actions, and breeding for crop allelopathy and crop resistance against parasitic weed infection.

Guest Editor

Dr. Mónica Fernández-Aparicio

Institute for Sustainable Agriculture (IAS), CSIC, Córdoba, Spain

About the Journal

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, cross-disciplinary and scholarly journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. We invite submissions from authors according to the aims and scope of the journal described in more detail on this page. *Agriculture* is published in an open access format – articles are published on the journal's website immediately after acceptance, giving the scientific community and the public unlimited and free access to the content.

Editor-in-Chief

Prof. Dr. Les Copeland

Sydney Institute of Agriculture, School of Life and Environmental Sciences, The University of Sydney, Sydney, NSW 2006, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
