Special Issue

Sustainable Use of Pesticides

Message from the Guest Editors

This Special Issue aims to achieve sustainable use of pesticides by reducing the risks associated with pesticide use in agriculture and promoting the use of integrated pest management (IPM) and alternative green approaches and techniques. Research articles will cover topics related to pesticide use status, pesticide risk evaluation, new techniques of pesticide application, field pest resistance status, resistance mechanism, and pesticide resistance management strategies. For this Special Issue, we welcome all types of articles, including original research, opinions, and reviews.
