

Special Issue

Smart Irrigation

Message from the Guest Editors

Special Issue will focus on recent developments in smart irrigation technology and practice, helping to clarify the potential, typologies, and limitations of information and digital technologies applied to the design and management of irrigation systems. Following topics are encouraged: (1) Irrigation management, including scheduling optimization and systems operation control and automation aimed at water and energy savings; (2) crop management and fertigation, including crop local and remote sensing, controlled deficit irrigation, and yield optimization; (3) control on the use of non-conventional water for irrigation, such as treated wastewater or drainage water reuse by applying intelligent systems to monitor water quality, soil salinization and health risks; (4) digitalization of irrigation scheme management aiming to optimize maintenance and operation of equipment and infrastructures, including web services for integrated and real-time management of information and infrastructure operation; (5) geographic information systems -optimization logistics of the smart irrigation technology maintenance; (6) unmanned aerial vehicles that assist in smart irrigation technology.

Guest Editors

Dr. José Manuel Monteiro Gonçalves

Department of Agricultural Sciences and Technologies, Polytechnic of Coimbra, College of Agriculture, 3045-601 Coimbra, Portugal

Prof. Dr. José Manuel Torres Farinha

RCM2+ Research Centre for Asset Management and Systems Engineering, ISEC/IPC, Rua Pedro Nunes, 3030-199 Coimbra, Portugal

Deadline for manuscript submissions

closed (31 December 2022)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Dr. Mathew G. Pelletier

Retired Scientist from Agricultural Research Service, United States
Department of Agriculture, Lubbock, TX, USA

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubAg, FSTA, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Agricultural Engineering) / CiteScore - Q1 (Horticulture)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.6 days after submission; acceptance to publication is undertaken in 5.4 days (median values for papers published in this journal in the first half of 2025).
