

## Physiological and Growth Response of Crops

Guest Editor:

**Prof. Dr. Hongwei Zhao**

Key Laboratory of Germplasm Enhancement, Physiology and Ecology of Food Crops in Cold Region, Ministry of Education, Northeast Agricultural University, Harbin 150030, China

Deadline for manuscript submissions:

**31 May 2024**

### Message from the Guest Editor

Complex physiological changes occur during crop growth and development, affecting crop morphology, function, and biomass. In addition, crops are stimulated by biological and abiotic stresses all the time, and different responses to the stimuli result in differences in resistance among individuals. It is important to understand the physiology and growth response of crops in depth in order to achieve their genetic improvement. This Special Issue aims to publish cutting-edge research on the physiological and growth responses of crops, including the changes of physiological metabolism during the growth and development of crops, the physiological growth response of crops caused by resource utilization, and the physiological and molecular mechanisms of crops in response to external stimuli. We welcome comprehensive reviews, full-text research articles, and short communications.

an Open Access Journal by MDPI

## **Message from the Editor-in-Chief**

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

## **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (*Agronomy*) / CiteScore - Q1 (*Agronomy and Crop Science*)
