Message from the Guest Editors

Dear Colleagues,

This Special Issue will focus on “Genetics of Nutrient Use Efficiency and Management in Cereal Agroecosystems”. We welcome novel research, reviews and opinion pieces covering genotype and genotype x management interaction for nutrient use efficiency in small grain cereals. Topics include beneficial micro-organisms interactions, crop genetics and improvement for yield, quality and human nutrition, novel crops, phenotyping, physiological responses to nutrient deficiency, interactions to management solutions, modelling, case-studies from the field, and policy positions.

Dr. Jacques Le Gouis

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Author Benefits

Open Access:—free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: Indexed in the Science Citation Index Expanded (SCIE) - Web of Science from Vol. 5 (2015). Covered in **Scopus** (2019 CiteScore: 1.8) and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2020).
