

## Improving Nutrient Use Efficiency from Lab to Field

Guest Editor:

**Dr. Borjana Arsova**

Institute of Bio- and Geosciences  
(IBG), Jülich Research Center,  
52428 Jülich, Germany

Deadline for manuscript  
submissions:

**closed (30 July 2021)**

### Message from the Guest Editor

In this Special Issue, while we will primarily focus on the macronutrients N and P, the study of all essential nutrients is welcomed. We are interested in latest studies that untangle plant uptake, nutrient allocation, and nutrient sensing and signalling in the plant. Furthermore, we welcome manuscripts on novel strategies for improving plant performance at limiting nutrient levels (at the molecular level or through the identification of novel root traits/phenotypes that facilitate uptake), and agricultural practices including but not limiting to the use of microorganisms.

an Open Access Journal by MDPI

## **Message from the Editor-in-Chief**

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

## **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Agronomy and Crop Science)
