

Photosynthetic Pathway Evolution

Guest Editor:

Dr. Andrea Trotta

Institute of Biosciences and
BioResources (IBBR), National
Research Council of Italy (CNR),
Rome, Italy

Deadline for manuscript
submissions:

closed (1 February 2022)

Message from the Guest Editor

This Special Issue focuses on the unique characteristics of the photosynthetic pathway in non-model organisms. We welcome high-quality research articles in the fields of plant physiology, proteomics, proteogenomics, biochemistry, biophysics, phenotyping and genetics, with a special emphasis on land plants with an agricultural and/or biomedical interest.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), GEOBASE, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
