

Special Issue

Post-harvest Pest and Disease Management—2nd Edition

Message from the Guest Editors

Following the success of the first Special Issue “[Post-harvest Pest and Disease Management](#)” in *Agronomy*, we are pleased to announce the launch of a second series of the Special Issue. Storage is a critical stage in agricultural production. During storage, transportation, and processing, commodities can be heavily damaged by pests and diseases, which can cause significant losses and considerable qualitative degradations. Based on the above, we have initiated, and are now expanding, a Special Issue in *Agronomy* on “Post-harvest Pest and Disease Management”, which will focus on:

- Pests and diseases that infest agricultural commodities during storage;
- Use of conventional and modern techniques to control pests and diseases during storage;
- Modeling of conditions and related parameters during the post-harvest stages of agricultural commodities;
- Socio-economic aspects related to storage issues.

This Special Issue aims to increase awareness of the adoption of judicious techniques throughout all post-harvest stages of agricultural products under a “from farm to fork” approach.

Guest Editors

Prof. Dr. Christos G. Athanassiou

Dr. Paraskevi Agrafioti

Dr. Efstathios Kaloudis

Deadline for manuscript submissions

31 October 2025

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
