

Special Issue

Fertilizer Innovation and Practice in Sustainable Intensified Agriculture

Message from the Guest Editors

This Special Issue invites cutting-edge research submissions on innovative fertilization strategies to promote sustainable agriculture. Particular areas of interest for this Special Issue include improving soil fertility for optimal nitrogen uptake, identifying site-specific soil fertility thresholds, and employing diagnostic tools to monitor plant nutrition during critical yield formation stages. Contributions should explore the integration of secondary nutrients and microelements to enhance nitrogen efficiency and crop productivity while minimizing environmental impacts. We welcome studies that balance high agricultural yields with ecological sustainability, advancing our understanding of nutrient interactions and their role in soil-plant systems. Solutions addressing these challenges will contribute to long-term food security and the development of sustainable farming practices.

Guest Editors

Prof. Dr. Witold Grzebisz

Department of Agricultural Chemistry and Environmental Biogeochemistry, Poznan University of Life Sciences, 60-625 Poznan, Poland

Dr. Nevien Elhawat

Department of Applied Plant Biology, Faculty of Agricultural and Food Sciences and Environmental Management, University of Debrecen, Böszörményi Str. 138, 4032 Debrecen, Hungary

Deadline for manuscript submissions

1 September 2025

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
