

Special Issue

Plant Stress Responses: Host-Microbe Interactions, Reactive Oxygen Species Signaling, the Role of Phytohormones, and Disease Control

Message from the Guest Editor

In this exciting context, *Agronomy* is launching a Special Issue devoted to 'Plant Stress Responses: Host-Microbe Interactions, Reactive Oxygen Species Signaling, the Role of Phytohormones, and Disease Control'. Both original research and review articles are welcome. Potential topics include but are not limited to the following:

- Physiological, metabolic, and molecular responses of plants to abiotic and biotic stresses;
- Identification of novel players involved in plant responses to stress conditions;
- Identification of biotechnological strategies to increase plant tolerance to abiotic and biotic stresses;
- Understanding molecular interactions and crosstalk among different stress conditions.

Guest Editor

Dr. Min Gao

College of Horticulture, Northwest A&F University, Yangling 712100, China

Deadline for manuscript submissions

closed (29 March 2023)

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
