

Special Issue

Planting Production, Identification and Quality Control of Medicinally Agricultural Products

Message from the Guest Editor

This Special Issue especially welcomes research based on omics and high-throughput technology, as well as the exploration of multidisciplinary technology combination. We welcome submissions of different types of manuscripts including original research papers, reviews, and methods, focusing on, but not limited to, the following topics:

- Advances and challenges in medicinal plant breeding, cultivation and planting production;
- Production of bioactive plant secondary metabolites through in vitro and in vivo technologies;
- Physical, chemical and biological methods for the identification/authentication of medicinal crops and medicinally agricultural products;
- Identification of genes and compounds with agronomical/medicinal relevance in cultivated medicinal plants;
- Quality control and improvement of medicinal crops and medicinally agricultural products;
- Implementation of good agriculture practice, ecological agriculture and pharmacophylogeny in medicinal plant production;
- Advances in disease epidemiology, plant pathology, and integrated pest management in sustainable medicinal plants production.

Guest Editor

Prof. Dr. Da-Cheng Hao

Biotechnology Institute, Dalian Jiaotong University, Dalian, China

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
