

## Special Issue

# Effects of Cover Crop, Intercropping and Crop Rotation on Soil Properties

### Message from the Guest Editors

Soil properties and their interactions with crops remain a key issue for global agriculture. Only by continuously improving our understanding of these issues can we move agriculture towards safe food production for 8 billion people while reducing energy inputs. The aim of this Special Issue is to gather new information from around the world and contribute to the development of global agriculture and food security. Submissions should contain new data and findings, especially in the areas of soil protection from damage, appropriate crop rotation principles, and related topics. New and unexpected connections are also welcome, as are other beneficial effects on soil, which remains one of the most valuable resources on earth.

### Guest Editors

Dr. Petr Novák

Department of Agricultural Machines, Faculty of Engineering, Czech University of Life Sciences Prague, Kamýcká 129 st., Prague 165 21, Czech Republic

Dr. Milan Kroulík

Department of Agricultural Machines, Faculty of Engineering, Czech University of Life Sciences, 165 00 Prague, Czech Republic

### Deadline for manuscript submissions

30 January 2026

## About the Journal

### Message from the Editor-in-Chief

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

*Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
