

Special Issue

Sustainable and Climate-Resilient Agroecosystems: Challenges to Meet the 2030 Agenda

Message from the Guest Editors

This Special Issue aims to provide reliable information from around the world on research, education, innovation, and management practices that encourage the transition to more sustainable and resilient agroecosystems in an increasingly critical climate change context. Researchers are invited to submit papers on the following potential topics:

- Agroecology and sustainability;
- Ecosystem services;
- Barriers and enablers of agroecological transition (at the global, regional, and local scales);
- Biodiversity and ecological functions;
- Traditional and local knowledge/practices;
- Multi-actor approaches and participatory dynamics;
- Agroecosystems' adaptation to climate change;
- Water management in agricultural systems;
- Policies supporting the agroecological transition;
- Multifunctional agricultural landscapes.

Guest Editors

Dr. Paula Castro

Prof. Dr. Helena Freitas

Dr. Joana Costa

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
