

Special Issue

Humus Application for Plant Nutrition and Sustainable Soil Fertility

Message from the Guest Editor

This Special Issue invites articles from global researchers contributing to the following areas:

- Application of humic substances in agroecosystems
- Composting and prospects of enriched composts
- Influence of C biomass addition on soil fertility, plant nutrient uptake, and yield
- Soil C pools as affected by long-term C input
- Activated carbon biochar for soil fertility improvement
- Microbial studies and their relation with nutrient release and yield
- Profile distribution of soil C stocks under different land-use systems
- C decomposition/mineralization studies in laboratory and field conditions
- Site-specific manurial experiments to improve nutrient management
- Carbon farming technologies defining the nexus between soil C, water, crop yield, and climate
- Relation of soil C with soil physical, chemical, and biological properties
- Soil erosion or degradation studies showing the changes in soil C
- Different agronomic practices for soil C build-up
- C sequestration studies for climate adaptation
- Advanced studies in C build up in agriculture system
- GIS/Remote sensing applications in soil C studies

Guest Editor

Dr. Rahul Datta

Department of Geology and Pedology Brno, Mendel University in Brno, Brno, Czech Republic

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
