

## Special Issue

# Agricultural Water Management in Arid, Semi-Arid and Drought Prone Areas

### Message from the Guest Editors

This Special Issue will focus on water conservation practices, advanced irrigation tools and water technologies, evapotranspiration and modeling, and best management practices and strategies for efficient water use in agriculture under scarce water availability, particularly in arid, semi-arid and drought-prone areas for climate change. I am very pleased to invite you to submit manuscripts in “Agricultural water management in arid, semi-arid and drought-prone areas” which assess current challenges and offer improvement approaches and opportunities for future agricultural water management.

## About the Journal

### Message from the Editor-in-Chief

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

*Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
