

Special Issue

Biological Technologies for the Remediation of Contaminated Agricultural Soil

Message from the Guest Editors

Submissions on (but not limited to) the following topics are invited: (1) Innovative methods for monitoring and assessing soil quality, (2) novel biological methods in soil remediation, (3) interdisciplinary approaches in biological soil remediation, (4) advances in molecular microbial ecology toward soil remediation, (5) genetic engineering considerations in soil bioremediation, (6) progress in methods for in situ remediation approaches, and (7) economic, social, and sustainable aspects of soil bioremediation.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
